Oops, I bought this immediately after trying the North Wales Coastal Extension and thought these freight scenarios were for that area of the extension.. 7H19 Penmaenmawr Quarry – Guide Bridge(BR 1995) 08 6D35 Walton Old Junction – Point of Ayr Colliery(BR 1995) 09.. 0cNetwork: Broadband Connection (May incur additional costs for use)Storage: 40 GB or more available space (Additional Add-Ons will require more)Sound Card: DirectX Compatible Audio DeviceAdditional Notes: Requires mouse and keyboard or Xbox ControllerLaptop, Notebook, Mobile or Low Power versions of the above specifications (including Intel or Integrated Graphics) may work but are not supported.

Not only that, but Inspector Wilfred Greaves will be on-board for certain scenarios, performing quality audits of the train, rolling stock and route's track and signalling – he keeps himself to himself, just as long as you abide by the rules.. Hopefully Foxtrot Sierra Scenarios will shortly follow up with some good shunting scenarios to cover the sidings on the section between Llandudno and Holyhead.. Included Scenarios(BR 1995) 01 1D33 Manchester Piccadilly - Llandudno(BR 1995) 02.

English Warning, only for the 1st North Wales DLC Will try to update as I try the scenarios.. Based on real working timetables from 1995 and 1996, North Wales Coastal Scenario Pack 01 brings to life the atmosphere of the route in the 90s, featuring motive power and rolling stock in a plethora of classic liveries remembered fondly today.. The North Wales Coastal route is one packed with fascinating operational history, with both passenger and freight traffic in-tow along the route.. Unfortunately not but will still suit my need for freight on this most pleasant route.. Updates to Chipset, Graphics and Audio Device Drivers may be required For information relating to recommended specifications for Train Simulator 64-bit, please refer to the Train Simulator 2019 User Guide. ceal14251b [Acrobat Reader For Chrome Mac](#)
